PROFILE

I am an aspiring Java Backend Developer with practical experience in building RESTful APIs, relational databases, and scalable backend systems. I have participated in medium and large-scale projects, strengthening my knowledge in Java, Spring Boot, and backend architecture. I am passionate about solving complex problems, improving my skills, and contributing effectively within a team. I am eager to learn new technologies and take on challenging projects. I am fully confident in my ability to successfully complete any task or responsibility assigned to me.
